

Creating the coolest spot in town

When the owners of Trio Cocktails & Company first heard of DIRT, they saw it as a way to quickly update the perimeter walls of their new lounge. Then they met us. That's when it became obvious that DIRT was the best way to build their entire space.

They learned DIRT quick-connect power installs quickly. DIRT Millwork is built custom to fit the space perfectly. And Willow Glass wall panels are as durable as they are good looking. With a modular approach, Trio got a stunning, contemporary aesthetic completed in a fraction of the time it would have taken to build using conventional construction.
